Kit CCS4

Commercial 4 outputs

Article number : 26126

4 outputs

CAN Control Panels for service and emergency vehicles

Technical characteristics for the power module

- 2 outputs of 15A
- 2 outputs of 3A
- 1 permanent output of 6A
- Possibility of ground input (depending on the program)
- Total Maximum Power consumption:30A
- Casing in ABS
- Protection index: IP54-IK08
- Automotive communication protocol : CAN
- Power supply: 10,5 to 30 V

Control panel:

- 4 control buttons
- On/Off button
- Low battery alarm
- Set of customized buttons adapted to the devices

The Kits include

- The power module
- The control panel with dashboard fixing system and a set of buttons
- 4,5 m Bus wiring loom
- Power supply wiring kit,
- Connectors, fuses and fuse holders
- Wiring connecting looms for inputs and outputs
- An Installation guide and user manual

The system is automatically programmed in the BASIC version without any slave controls : 1 button = 1 output

Housing	ABS
Voltage	10-30V
Outputs	2 outputs of 15A 2 outputs of 3A 1 permanent output of 6A
Enclosure rating	IP54 IK08

CCS 4 Pack	Item n° (12 / 24 V)
Basic *	26123
Road services	26126
Scrolling	29452

* without slave module. No automatic function management

CCS 4 Pack	Item n° (12 / 24 V)
Basic *	26123
