

Kits for upgrading lightbars from M to ML

Extend the life of your Gyroleds !

Article number : 23731

M lightbars are renowned for their quality and durability. MERCURA offers you the chance to upgrade your M lightbar using LED technology. These upgrade kits allow you to transform your lightbar with halogen or xenon rotating lights into an LED lightbar, without modifying the installation on the vehicle.

You will be able to preserve the properties and the design of the M lightbar, adding all the benefits of the Gyroleds, in particular lower energy consumption.

Contents of the Kit :

- Approved Gyroleds

Two or four Gyroleds*

Rotating or flashing*

- Polycarbonate casing*
- Mounting supports, fastenings, connectors
- Installation instructions
