

"M" lightbar casing

A rust-proof anodised aluminium structure

Article number :

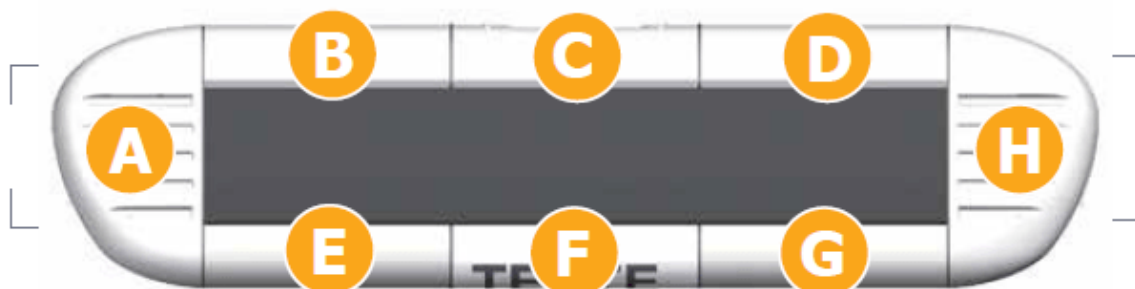

Technical specifications:

- A rust-proof anodised aluminium structure
- Polycarbonate casing: its high transparency and excellent impact resistance make polycarbonate the best material for the production of automotive lighting components.

THE FRONT OF THE LIGHTBAR

A	B	C	D
Side end driver	Casing front left	Front central casing (for lightbars with sirens and cased loud speakers with a grill)	Front right casing
