

## R124 Battery reconditioner

Battery desulphator and regenerator

Article number : 29863

### Environmentally friendly, the R124 saves time and money.

Our new R124 Battery Conditioner extends the lifespan of your vehicle batteries by 50-100% without compromising capacity. Installed on the battery, it prevents sulfation which quickly leads to reduced battery capacity. Can be used with both old and new batteries in order to improve and maintain capacity.

Connecting the R124 to your batteries means you can:

- Minimise the risk of unplanned stoppages.
- Extend the lifespan of the starter motor by 25% or more.
- Extend the lifespan of the generator by 50% or more.
- Extend the lifespan of batteries by 50-100%.
- Save time, money and environmental resources by changing batteries less.
- Maintain the high performance of all the vehicle's interior and exterior electronics.

<b>Housing</b>	Polypropulene
<b>Voltage</b>	12V, 24V
<b>Consumption</b>	< 20mA
<b>Weight</b>	65 g
<b>Length</b>	48 mm
<b>Height</b>	17 mm
<b>Width</b>	45 mm
<b>Operating temperature</b>	-40°C to +85°C
<b>Enclosure rating</b>	IP67, IP68, IP6K9K

### Technical specifications :

- Polypropulene housing
- Cable length : 50 cm
- Voltage 12-24V
- Consumption < 20mA
- Weight 65 gr
- Dimensions : 48 x 45 x 17 mm
- Operating temperature : -40°C to +85°C
- Protection rating : IP67, IP68, IP6K9K
- EMC, ECE R10
