

GYROLED®

M80

CLASS 1

The beacon for automotive professionals

- LED beacon, R65 and EMC approved in rotating and flashing mode
- Sold in batch – economical price
- Intended for first assembly
- Height brightness R65 Class 1 approved
- 13 flash patterns available programmable by the user (by default, product delivered in rotating mode)
- Plastic base for better heat dissipation

Technical specifications

ISO version:

- Height 96 mm – diameter 134 mm
- Weight: 0.450 kg

Pipe-mount version:

- Height 176 mm – diameter 134 mm
- Weight: 0.585 kg

Magnetic version with cigar lighter plug:

- Height 105 mm – diameter 134 mm
- Weight: 0.750 kg
- Spiral cable length min. 50 cm max. 3 m

- 13 flash patterns
- Polycarbonate dome
- Input voltage: 12 - 24V
- Power supply: 11 W maximum
- Operating temperature: -40°C to +85°C
- Protected against polarity reversals
- Average consumption: 850m A in rotating mode at 13.5V
- Guarantee period: 3 years

Approvals

PHOTOMETRY:

R65 Class 1 approval in rotating and flashing mode

PROTECTION RATINGS:

Impermeability: IP45

Protection from mechanical impacts: IK08

EMC:

« E » Marking Regulation R10 N° E2 10R05 16242

CISPR25 (2008) : class 4 or 5 radiated
