

NEW

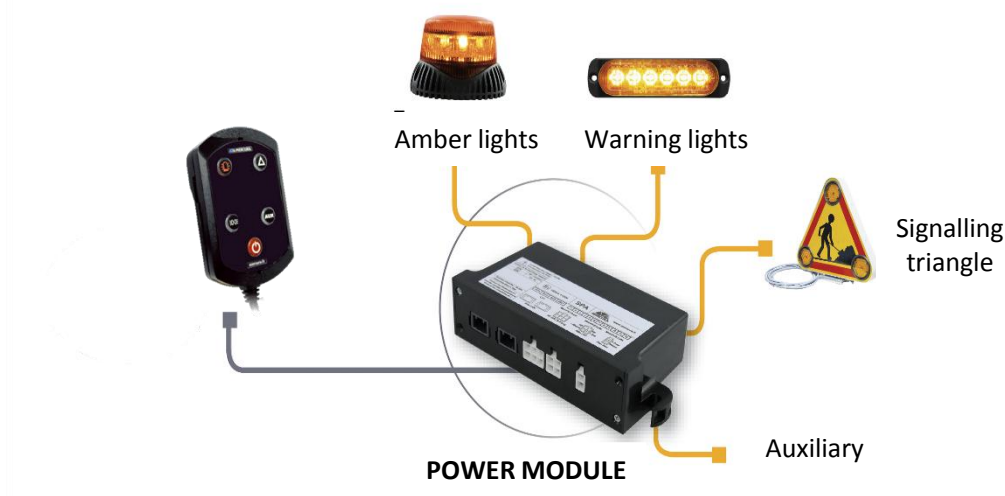

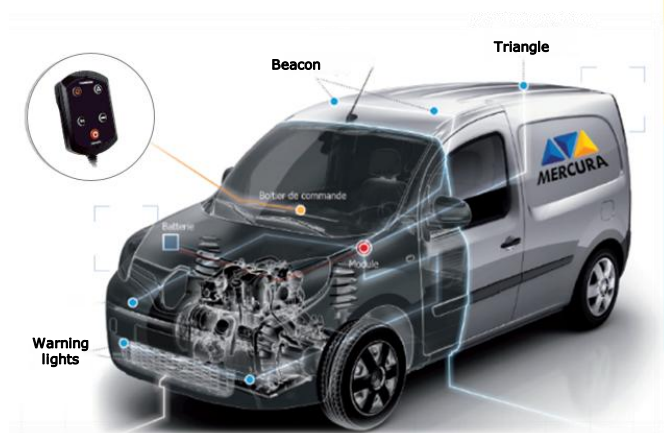

PACK CCS 4 LITE

Electronic control panel

- Simple and easy to use
- No need for fuse
- Battery alarm built-in
- No intervention on vehicle's original electric network
- No impact on the vehicle manufacturer's warranty
- Reduced wiring
- Reduced installation time
- Very easy control panel mounting

Pack CCS 4 LITE	32136

PACK CCS 4 LITE

Electronic control panel

Features

- Signaling control
- Problem detection:
 - short circuit
 - open load
 - battery level
- Automatic shutdown
- Electronic fuse without replacement
- Automatic start (+ after ignition)

Kit composition

- Control panel with dashboard mounting system
- 5 m BUS cable
- Power module
- Wiring and connecting kit
- Connectors, fuses and fuse holder
- Connecting kit for outputs and inputs
- User and installation manual

Technical specifications

Power module:

- 1 triangle output (13A-reversible)
- 1 beacon output (6A)
- 1 warning lights output (3A)
- 1 output for other electric accessories (3A)
- 1 ground input for hand brake
- 1 input for rotating engine automatic start
- Maximum load: 25A
- Dimensions with protective casing (H x W x L): 140 x 64 x 33 mm – Weight 115 g
- Operating temperature: -40C° / +85C°
- Casing in ABS – Protection index: IP41
- Power supply: 12 V
- Consumption in standby mode < 1mA
- Protection against polarity inversion, short circuits and overconsumption

Control panel:

- 4 buttons with automatic back lighting
- 1 On/Off button
- Low battery alarm
- Short circuit alarm
- Power supply via a power module
- Button symbols adapted to equipment
- Dashboard control panel mounting system

EMC Approval for Power Module:

- "E" Marking Regulation R10 n° E2 R10 05 18060*00
